ROME August 15.—Italy and Austria are near a serious rupture of relations following Italy's refusal to permit four Austrian army corps to cross Italian territory to re-inforce the German Army in Alsace. Austria's demand was based upon its interpretation of the existing treaty. The Italian Foreign Office refused, and declared that Italy intended to preserve her neutrality at all hazards.

COPENHAGEN, (via London,) Aug. 16.—According to a special message from Berlin 23 Russian Generals and Admirals, including the former Commander-in-Chief of the Black Sea fleet, have been interned by the German authorities.

WASHINGTON, Aug. 15.—The United States Government announced itself to-day as opposed to the floating of loans in this country for the benefit of any of the belligerent powers of Europe.

Switzerland, a neutral country, inquired through her charge d'affairs if she might float a loan in the United States, and was informed that the restrictions would not apply to neutral countries.

J. P. Morgan & Co. was approached by a group of private bankers who wished to know if a loan even should be desired by the French Government whether it could be floated in the United States. The Morgan firm announced that regardless of its legal right to engage in private commercial transactions at its own risk, it would take no action which the State Department might disapprove. Inquiry was made of Secretary Bryan several days ago by the bankers as to what the attitude of the American Government would be. Today the Swiss charge d'affairs also presented an inquiry.

LONDON, Aug. 15.—A Malta dispatch to the Reuter Telegraph Company says the German cruisers Goeben and Breslau were pursued by British warships until they actually entered the Dardanelles.

BERLIN, Aug. 15.—The necessity for Americans returning to the United States seem to be less urgent now. A special train which left the capital yesterday bound for Holland was not filled to its capacity with tourists, but at the same time many wished to return as soon as the opportunity offers. Germans everywhere are very hopeful.

LONDON, Aug. 15.—The Brussels correspondent of the Star says a Belgian officer who escaped from Liege brought details of the death of Gen. Von Emmich. The officer declared that Von Emmich committed suicide. The correspondent said that Von Emmich's confidence in the German army and his style of fighting was shattered by the events around Liege.

LONDON, Aug. 15.—The Central News correspondent at Brussels who has returned from the front estimates that the German losses in killed throughout the fighting against the Belgians so far amounts to fifteen thousand.

WASHINGTON, Aug. 17.—President Wilson declared to-day he had no reason to question the good faith of the declaration of Japan in promising to observe the integrity of China in connection with the Japanese ultimatum to Germany demanding the surrender of Kiao Chau to the Japanese Government. The President would not discuss the ultimatum, saying that one of the duties of neutrality was to have no opinion of what other nations were doing.

LONDON, Aug. 17, (Associated Press Cable)—Official dispatches say Greece has received information that the Turkish troops are crossing Bulgarian territory and marching in the direction of Greece. The Hellenic Government, in consequence of these reports, has notified Turkey that if this news should be confirmed, corresponding military and naval measures will be taken immediately by Greece.

BROTHER SHOOTS BROTHER

Nelson Gay, a fourteen-year-old colored boy, was shot and instantly killed Saturday afternoon, on the farm of Mr. E. K. Thomas, near North Middletown, by his brother, Joe Gay, aged thirteen. The killing was purely accidental.

The boys, whose parents are tenants on the Thomas farm, had secured a shot gun belonging to their father, Gene Gay, and were out in the front yard of their home shooting bulbats. The older Gay had just re-loaded the gun with two shells, and was in the act of raising it to his shoulder when it was accidentally discharged, the entire load taking effect in the head and right side of the younger brother, who fell to the ground and expired almost instantly. Coroner Rudolph Davis, of Paris, was immediately notified, and accompanied by Deputy Sheriff Gibson, went to the scene. The boys' parents were eye-witnesses to the shooting, which was purely accidental, and the Coroner, after hearing their testimony, decided no jury investigation of the case was necessary, and made his report in accordance with the facts.

CAUGHT IN STEEL TRAP, THIEF MANAGES TO ESCAPE

For some time Mr. James Batterton, who conducts the ice cream works, near the old Midland depot, on South Main street, has been missing quantities of cream, which disappeared from other causes than leakage.

At one time the thief or thieves, got away with ice cream, freezer and all. At times freezers left in the wagons under the wagon shed with a quantity of cream disappeared almost before the driver reported to the office.

Last Thursday night Mr. Batterton secured two steel traps and set them just under the surface of a partly filled freezer which had been purposely left in the shed. About half an hour afterward the air was filled with screams of agony, and Mr. Batterton, securing a revolver, hurriedly made his way to the wagon shed, but the thief had managed to release himself and escaped, leaving no clue. Mr. Batterton sat up for an hour or two awaiting for the thief to return and get the other trap, but without result. In the meantime the police are searching for a man or boy with a maimed hand, and Mr. Batterton has not lost any more ice cream. He has traps ready for active service again.

A CASE FOR THE CIVIC LEAGUE.

The old Baptist church property, which was purchased some years ago by the firm of Kress & Co., who announced that they would immediately erect a fine business house on the site, has since that time become anything but a thing of beauty.

The lot is full of rubbish, in full view of Main street, and has been in that condition so long that it has become an eyesore. The attention of the Health Officer and Civic League is called to the fact that the lot referred to is

overgrown with rank weeds and other vegetation affording a convenient hiding place for refuse of all kinds, and contributing to make the place about as unsightly as a Coney Island beach after a storm. The site of the contemplated Y. M. C. A. building is also falling into disrepute and keeping bad company with the weeds. Remember we had a cleaning-up day some months ago! Rather spasmodic, but did some good. Let's have another one!

POPULAR BALL PLAYER MARRIED.

A marriage that will prove of interest locally and elsewhere in the base ball world took place in this city yesterday afternoon, when Rev. J. S. Sims, of the Methodist Church, united in marriage Mr. Herbert C. Dawson, of Lexington, well-known as "Hub" Dawson, and Miss Mary Dozier, of Versailles. The couple came to Paris yesterday afternoon from the home of the bride in Versailles, and, after the bride had made the customary affidavit as to her age, a marriage license was granted by County Clerk Paton. Rev. Sims was found in his study at the Methodist church and the ceremony was performed there. Mr. and Mrs. Dawson left on the 3:45 interurban car for Lexington. It is said that objections on the part of the bride's parents impelled the couple to seek Paris as a Gretna Green. The groom is well-known throughout the Bluegrass region, having for many years been catcher for the Richmond team in the Blue Grass League, later going to the St. Paul team of the Northwestern League, and eventually returning to Kentucky where he reentered the field as catcher of the Lexington team in the Ohio State League. His bride comes of a well-known Woodford county family.

TO GO TO CALIFORNIA.

Dr. Clara Matthews, who has for several years been conducting an optician office in this city, with her office in the Deposit Bank building, will close out her business interests here, and go to California to reside. This move is being made upon the advice of her physicians, the state of her health being such that a change of climate has become imperative. Dr. Matthews will visit her daughters in San Francisco for a short while. In this issue of the News she advertises her office furniture for sale. During her residence here Dr. Matthews has been signally successful and her business has increased.

Dr. Matthews will be in her office for several days yet, ready to test eyes and wait upon her customers.

WAR AFFECTS PARIS MARKETS.

Although very remote from the scene of the European conflict, Paris (Ky.) is feeling in some degree the stringency in the money market and the increased cost of foodstuffs, which is causing a general protest all over the United States.

There is a general outcry against the increase in the prices of certain commodities, for which there seems to be no reasonable excuse. Retailers have to protect themselves, it is admitted, but it is against the large wholesale companies who have put up the prices that there is so much over.

Hogs are said to be cheaper than they were several weeks ago, and yet fresh pork is selling at 23 cents a pound, which is an advance of 2 cents, and the wholesale price has advanced even more.

Beef, veal and lamb remains the same, from 15 to 18 to 20 and 25 cents for choice cuts. Lard is still retailing at 15 cents.

Flour has advanced 60 cents on the hundred pounds. A month ago it was selling cheaper than had been known for a long time, but now it costs consumers \$1.70 for fifty pounds, notwithstanding the fact that there is more wheat in the country than for years, and local dealers are paying only 75 cents a bushel for it.

Sugar is another necessity that is rapidly advancing in price, selling at 9 cents a pound, 11 pounds for \$1, and \$7.75 a hundred.

Fresh vegetables are selling at fairly reasonable prices—corn at 15 and 20 cents a dozen, potatoes at 40 cents a peck and tomatoes at \$1.50 per bushel.

BOURBON WOMEN ORGANIZE LOCAL OPTION LEAGUE

A large and enthusiastic audience of Bourbon county women met in the county court room in the Bourbon County Court House, Thursday, and perfected an organization called the Bourbon County Women's Local Option League.

The following officers were elected to serve in their several official capacities during the life of the League:

Miss Mayme Spears, president; Mrs. C. O. Hinton, secretary; Mrs. M. H. Dailey, treasurer; and eight vice-presidents, one from each of the large precincts in the county: Mrs. J. T. Vansant, Paris; Mrs. Ed. Taylor, Millersburg; Mrs. John T. Collins, North Middletown; Mrs. L. A. Soper, Little Rock; Mrs. R. C. Talbott, Clintonville; Mrs. J. J. Dickey, Hutchison; Mrs. J. W. Ferguson, of Shawhan, Ruddles Mills; Centerville to be supplied.

Those vice-presidents are also chairmen of membership committees, whose duties shall be to increase the membership of the League. For the same purpose, chairmen were also appointed in fourteen districts of Paris.

A number of plans were discussed, and helpful suggestions were offered by Rev. J. D. Redd, of Millersburg, and Rev. J. J. Dickey, of Hutchison, who were present with their wives.

SERIOUS FREIGHT WRECK; CYNTHIANA SOY KILLED

North-bound fast freight No. 42, on the Louisville & Nashville road, was wrecked near Yuma, in Pendleton county, Sunday afternoon, eighteen cars being derailed. The train was in charge of Conductor Frank Bryan, Engineer Leo. McKenney and Fireman Harvey Feedback. Bernard Kenton, 18, of Cynthiana, was stealing a ride, and was caught under one of the cars and badly injured. His leg was crushed, necessitating amputation. He died shortly afterward, confessing that he had pulled the air brake handle causing the wreck. Two companions with him were uninjured. All through trains were detoured by way of Maysville, and over the C. & O. tracks to Cincinnati. The wreckage will be cleared by this morning. The Natural Bridge excursion train of fifteen coaches and with about 1,000 excursionists, was detained here until 11:15 p.m., on account of the wreck, and the tourists put in the time seeing Paris. The accident is said to have been caused by the bursting of the air hose under one of the cars, which caused the cars to "buckle" and overturn.

ENGLISH AS SHE ARE SPOKEN.

A number of handsome young women, who, with their escorts had been to Natural Bridge, Sunday, and were detained here for several hours by the wreck on the L. & N. near Falmouth, were admiring the window display in a store close to the News office. One of the party was bemoaning the fate that had stranded them ninety miles from home, when one of the nieces of the girls, a vivacious blonde, spoke up—

"Now Mayme, you don't know what trouble is. Here I'm ninety miles from my meal ticket, and I've got a date with him to-night. Say, kids; guess who I've got a date with to-night? Can't you, now, honest? He's sure a peach. Who, Charley? No, not that mutt. This man's a dinger. Nope, never had any dates with him before. Sure got lots of kale that makes the feeds come regular, you know. Honest, he has. I've shooed Charley for good. Had a date with that man a week ago, and, honest, girls, he can't talk for fried potatoes. And slow—why, he never even held my hand when I sprung the old gag about it being cold. Who did you say? That's right. Honest, I've got a date with him to-night, and here I am in Paris, Ky., ninety miles from home. O, but this is not the life for me."

And they moved away without offering the poor thing the least bit of consolation.

"WHEN the food reaches the stomach it is subjected to a peculiar churning movement by the muscular walls of the stomach" (See Dr. Pierce's Medical Adviser, page 46). In the liver, kidneys and skin, the blood is purified of its waste materials—these organs act as human filters, leaving the blood pure and clear—unless liver, digestive tract and kidneys are clogged.

Dr. Pierce's Golden Medical Discovery

is a stomach, liver and kidney tonic—by assisting the stomach to assimilate, the liver to filter, the kidneys to act—the poisons are removed, the red blood corpuscles are increased and one feels light, fresh and active instead of log, dull and heavy. The "Discovery" stimulates the stomach, increases action of heart and arteries and is a most satisfactory alterative in blood-taint of any character. The refreshing influence of this extract of native medicinal plants has been favorably known for over forty years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form; or send 50 one-cent stamps to Dr. V. M. PIERCE, Buffalo, N. Y., a trial box will be mailed you.

INTERNATIONAL HARVESTER COMPANY MUST DISSOLVE

At St. Paul, Minn., the International Harvester Company, Wednesday, was declared to be a monopoly in restraint of interstate and foreign trade and was ordered dissolved by a majority decision filed by Judges Smith and Hook in the United States Court.

Judge Walker H. Sanborn dissenting. The decision of the court was given by Circuit Judge Walter I. Smith, of Iowa, with which Judge William C. Hook, of Kansas, agreed, and from which Judge Walter A. Sanborn, of Minnesota, dissented.

The majority opinion held that the International Harvester Company was from its organization in 1902 in violation of the Sherman law. The original corporation, formed of five concerns, violated the first section of the Sherman act by restraining competition among themselves. The combined organization also tended to monopolize trade in contravention of the second section of this law.

BETTER BABIES CONTEST.

Number of entries, 50; number of babies examined, 39; number of boys examined, 26; number of girls examined, 13; average score of boys, 95.3; average score of girls, 93.2.

Number of boys between 6 and 12 months, ten, average score 93.1.

Number of girls between 6 and 12 months, five, average score 95.5.

Number of boys between 12 and 24 months, nine, average score 92.1.

Number of girls between 12 and 24 months, six, average score 94.6.

Number of boys between 24 and 36 months, seven, average score 94.6.

Number of girls between 24 and 36 months, two, average score 95.25.

Average weight at birth, 8 1/3 lbs. Average number of months, breast fed, 10 1/3.

All babies slept with fresh air; all but six slept alone.

All but three claim to be fed regularly, though a few admitted eating between meals.

Defects Found—7 cases of high palated arch (suspected cases of adenoids); 1 positive case of adenoids; 10 cases of enlarged tonsils; 4 cases of enlarged glands; 2 cases defective posture and gait; 6 cases with very bad symptoms of poor nourishment.

The doctors say that almost all of these defects can be remedied with proper attention. A large number of babies can be improved by regular feeding of simple, easy-digested, nourishing foods, suited in variety and quantity to their ages.

Isn't it worth while to find out about your baby?

The doctors who were the examiners for the Better Babies Contest, have offered to conduct several more such examinations, free of charge, for the benefit of babies whose parents become interested in the contest too late to enter theirs. This invitation applies particularly to babies who are not doing as well as their mothers would like, but who want to get in the prize-winning class for next year. Interested parents are invited to call Mrs. Whitley, E. Tenn. 386 for further information.

HIGH COST OF MATERIAL DUE TO WAR SCARE.

Newspaper publishers are receiving circular letters from paper manufacturers, ink manufacturers, etc., advising them that owing to the unsettled condition of the war in Europe, causing a curtailment of their products, all prices will be subject to revision. Meaning, of course, that they will take advantage of the opportunity to gouge the poor newspaper men. And the publishers will continue to furnish a \$2.50 paper, for \$2.00 a year, and the delinquents will continue to wonder why they are urged to come across with their subscriptions.

PREVENTION OF HYDROPHOBIA.

To the Peace Officers, Health Officer and the People of Kentucky:

A recent examination of dogs' heads from widely separated sections of the State shows an alarming prevalence of hydrophobia. Under the authority conferred upon it by law, the State Board of Health hereby requests and directs all persons owning valuable dogs to keep them upon their own premises or to have them carefully muzzled, and Sheriffs, Chiefs of Police, Constables and the people generally are hereby requested and directed to destroy, as painlessly as possible, all unmuzzled dogs running at large, with a view to the prevention of hydrophobia. Failure to observe this request is punishable by fine before any magistrate.

Through arrangements with the United States Public Health Service, the State Board of Health is enabled to give the Pasteur treatment at the Bacteriological Laboratory, Bowling Green, Kentucky, without expense, to individuals who have been bitten by rabid dogs or other animals. Dogs' heads suspected of being mad should be sent to the Laboratory, by express prepaid, and the result of the examination will be telephoned or telegraphed.

This board takes this occasion to inform the people of Kentucky that mad stones are useless if one is really bitten by an infected animal. Their use gives a false sense of security and their use is forbidden by law.

Given under our hands and the seal of the State Board of Health, this August 11, 1914.

BIG GUNS INVESTIGATING BOOSTERS OF FOOD PRICES IN NEW YORK.

NEW YORK, August 14.—Mayor Mitchel and District Attorney Whitman set in motion Thursday two investigations aimed at disclosing and bringing to punishment the men responsible for the increasing prices of foodstuffs, clothing and household necessities.

There is no longer any belief that the European war is responsible for high prices here except in the case of commodities which originate abroad or of which the raw product must be imported.

BLOW UP FORTS; DON'T SURNDER.

BRUSSELS, Aug. 14.—It was officially announced here today that none of the Liege forts had capitulated as had been stated in the German reports. It was declared that the defenders had been instructed to blow up the forts rather than surrender.

SAVING PRICES ARE UNWARRANTED

WASHINGTON, Aug. 14.—While the House of Representatives, usually impulsive in passing legislation of particular interest to the members themselves, has permitted various resolutions demanding an investigation of the sudden increase in the cost of food products to go through the ordinary routine of committee assignment and consideration, President Wilson suddenly took cognizance of the food situation in this country Thursday by directing the Attorney-General and the Secretary of Commerce to institute an immediate inquiry with a view to determining whether or not the advances in food are justified by economic laws, and if not, to begin criminal action against those responsible for forcing up the cost of living by arbitrary or artificial means.

In the President's judgment the unusually high prices of food now prevailing are unwarranted, and in his letter to the Attorney-General he displays deep indignation at what he considers to be an unjustified attempt on the part of certain interests and individuals to reap unusual profits at the expense of the masses of the people.

Secretary of Commerce Redfield is outspoken in his denunciation of the "food grabbers." He said that normal advances in prices could be expected, but that there was no reason for such large boosts.

"Artificial or abnormal advances are not only unpatriotic but damnable," said Secretary Redfield, "and those engaged in such activities deserve the severest punishment. Normal increases may be looked for, particularly in the prices of meat.

"It is reasonably certain that the demand abroad will increase, and those who hold their supplies will get higher prices."

The rise of 20 per cent in the price of automobile tires is pointed out as an example of what American manufacturers are willing to do with European competition eliminated.

Attorney-General McReynolds late Thursday sent instructions to the United States District Attorneys at Cincinnati, Covington, Cleveland, Indianapolis, Charleston, Pittsburgh and other places to inquire without delay into the food situation in their respective districts and to invoke the Federal law against all men who may be violating the statutes in boosting artificially or cornering food products.

FRENCH GOVERNMENT SEIZES KENTUCKY THOROUGHBREDS

Valuable thoroughbred horses, purchased in the Bluegrass by Phil Chinn, of Harrodsburg, for the Vanderbilt stables in Paris, France, are reported to have been confiscated for army service by the French Government. Mr. Chinn is now in England, and the report is not confirmed.

According to the Harrodsburg Herald these fine horses which he took from America to France have been confiscated for use by French cavalry officers, but it is understood that Mr. Chinn sold them before the war.

One horse bought for Vanderbilt by Mr. Chinn cost \$250,000.

John E. Madden, of Fayette has sold to Louis Wlnans, the English horseman, Polish, the crack two-year-old colt, of Ogden, out of Lucy Glitters. The price paid is not disclosed, but it is understood to be a good one, since Polish is considered a likely favorite for the Futurity to be run August 29, at Saratoga. He will start in the colors of the new owner.

Complaints were made to the Council of the inferior and uncertain electric service being furnished to the business men and residents of Paris. The question of whether the Light Company had the right to abandon its plant in Paris and secure its electric power from Lexington was freely discussed, and the matter was referred to City Attorney W. H. Whitley for investigation.

The following building permits were granted:

To Mr. Malachi Flanagan, permit to erect a frame dwelling house with slate roof, at the corner of High and Eleventh streets. Probable cost, \$2,000.

Permit to Sanford Garrard to build a two-story frame dwelling on Gano Street. Probable cost, \$400.

Permit to Mr. W. B. Cox to erect a frame cottage on Vine Street. Probable cost, \$800.

INFECTION AND INSECT BITES DANGEROUS.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds or stagnant matter, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25¢, at your Druggist.

Tapioca Glue.

An excellent glue that is harmless, colorless and odorless is made of tapioca. Cover the desired quantity with cold water, put it over the fire and stir, adding more water as it boils to make a good paste. It can be used to glue wood, leather or paper. For scrapbooks or photographs it may be necessary to add a little water.

Wild Cat in Scotland.

A wild cat has been caught in Ardmurchan deer forest, Argyllshire, Scotland, by a gamekeeper. The animal is very large, measuring 45 inches in length. It has a short, bushy tail, and is dark in color with brown stripes. It stands high on its legs and has a very tigerish appearance.

Got Missing Figures

THE General Manager was presenting plans for an extension of the factory to the company's directors at Detroit. He found that he had left an estimate sheet in his desk at the factory. After twenty-eight years of continuous service in the employ of the Adams Express Company, as messenger, clerk and agent, Mr. John Dean, who has been the local agent for the company for the past eight or ten years, has resigned his position, and will take a month's rest. Mr. Dean has had a number of fine offers, but had not as yet decided just what he will do. His accounts were checked over to the incoming agent, Mr. E. C. Colliver, Saturday, and found to be correct. The examination of new applicants will be conducted by the Commissioners at the same place to-day.

ADVERTISEMENT IN THE NEWS
BRINGS QUICK RESULTS.

A "lost" advertisement in the News Thursday night for the Friday issue was the means of restringing on Friday morning a ladies' coat that had been lost only the afternoon before. The coat belonged to Miss Brophy, Jackson, Ky., who is visiting her cousin, Miss Brophy, near this city. The papers containing the advertisement had not been on the streets more than a half-hour, when the coat was brought in by a colored man who found it on the street.

It pays to advertise in any paper, but advertising brings quicker results in the Bourbon News. "Now is the time to subscribe."

EXCURSIONISTS SEE PARIS.

The Louisville & Nashville's Sunday excursion train to the Natural Bridge was perhaps one of the heaviest ever sent out of the Queen City, fifteen crowded coaches carrying the visitors from the Buckeye State to this noted resort. On account of the wreck near Falmouth the excursionists were held over at Paris until 11:30, when they resumed their journey. The excursionists spent their enforced vacation here in inspecting the city, and all of them were greatly impressed and pleased with Paris. Numbers of them viewed the court house and expressed their admiration for the handsome building.

As a result of the frequent interruptions in the electric light service in this city, it is said upon what may be considered reliable authority, that the Alamo Theatre is considering the installation of a complete electric lighting and power plant to furnish current for lighting and for power to the machines in its picture service.

Electrical engineers were here some time ago, making calculations and estimates, which are being revised and held for further consideration.

"The Heard About Town" column of the Lexington Leader has this to say of a well-known young Paris boy: "Maurice Burnaw, who was billed to appear in the Million Dollar Mystery at the Orpheum yesterday, but who was not on the screen for some reason or other, spent the night in the city and returned to his home in Paris this morning. According to the advertisements, Mr. Burnaw (with his company) was to have danced the new dance yesterday, called the Lulu-faro, which is said to be some dance." Mr. Burnaw, when asked to describe the new dance, said that it was identical with the other dances now in vogue—except that the steps were different. When asked whether he had made the trip from Paris to see the Million Dollar Mystery, he was noncommittal. He

will leave on Sunday for New York, where he goes to fill a vaudeville engagement."

Among the guests at Oil Springs the past week were Mrs. Harry H. Hancock and daughters, Misses Frances, Edith and Virginia Hancock, Mrs. Rebecca Rudisill and Miss Ethel Freeman, of Paris.

NOTICE NOTICE

LOCAL OPTION ELECTION

The undersigned Sheriff of Bourbon County gives notice that the following order has been made by the Bourbon County Court and a copy thereof delivered to him, and that the local option therein provided for will be held in accordance with said order, which is in words and figures as follows, to-wit:

BOURBON COUNTY COURT.
IN THE MATTER OF
ON PETITION
T. F. BRANNON AND OTHERS.

This cause coming on to be heard upon the petition of T. F. Brannon and others asking for an election in the City of Paris, Bourbon County, Kentucky, on

SEPTEMBER 26TH, 1914,

to take the sense of the legal voters of said City upon the proposition whether or not spirituous, vinous, malt, or other intoxicating liquors shall be sold, bartered or loaned therein, and whether or not this proposition shall apply to druggists also, and the petitioners have introduced proof showing that there was Five Hundred and Eleven signers to said petition and that said Five Hundred and Eleven constituted more than twenty-five per cent. of the voters cast in the City of Paris at the last preceding general election, and it further appearing to the court that each and all of said signers were and are citizens of the United States of America and of the Commonwealth of Kentucky and each had been resident of the State of Kentucky for more than one year next preceding the filing of the petition herein and that each had been a resident of Bourbon County for more than six months next preceding said date, and that each had been a resident of his respective voting precinct in which he resides more than 60 days next preceding said date, and that each and all of said signers was and were at said date and are legal voters in their respective precincts, and all things appearing to the court required or necessary to appear, to entitle the petitioners to the relief herein granted, it is now ordered that the election prayed for be held in Bourbon County on the day named in the petition, to-wit:

THE 28TH DAY OF SEPTEMBER,
1914,

and the Sheriff of Bourbon County, who is appointed, authorized and directed to hold said election, is ordered and directed to open a poll at each and all the voting places in said County on said date for the purpose of taking the sense of the legal voters of the said County who are qualified to vote at elections for county offices upon the proposition whether or not spirituous, vinous or malt liquors shall be sold, bartered or loaned therein, the said law and prohibition shall apply to druggists also.

W. F. Talbott, Sheriff of Bourbon County, is directed to open a poll in each precinct in the City of Paris on said date and for said purpose, and said Sheriff is directed to advertise and publish this order in each issue of the Bourbon News for at least two consecutive weeks prior to the 26th day of September, 1914, the day upon which said election is to be held and he will cause to be printed, said order, upon hand bills and he will post said hand bills at at least five conspicuous places in the City of Paris, and he will cause said order to be published and said hand bills to be posted within seven days after he receives a copy of this notice. It is ordered that a special registration be held in the several precincts in the City of Paris on the 18th day of September, 1914.

Said election shall be held by such officers as are required to hold County elections, and they shall be selected in the same way as officers are selected for the purpose of holding County elections.

CATS ABOUT BODY

Find Remains of Aged Woman Surrounded by Pets.

Family of Felines Attack Police When Attempt Is Made to Remove Corpse—Father Was at One Time Cashier of a Bank.

Philadelphia.—The body of an aged woman, attired in a dirt-stained wrapper, lying within a circle of cats, was found by two special policemen when they entered an unkempt, dust-covered front room at 640 North Sixteenth street in answer to an anonymous telephone call.

The cats were the only living beings in the house, and the policemen were forced to battle with them before they could move the body of the dead woman. Investigation showed that she was Miss Sarah Lippincott Starr, seventy years old, who, with her sister, Victoria, and a horde of cats, had occupied the house for the last 12 years. Shortly after midnight Miss Victoria Starr, who is sixty-eight years old, came upon her sister lying at full length near the cellar door on the first floor. She did not disturb her for several hours because she thought she was sleeping.

Later when she knew her sister to be dead, she notified her nephew, whose name, she says, is Walter Jordan. He called the police and the Twentieth and Buttonwood station. Miss Victoria was out when the policemen called.

Police Surgeon John H. Egan found that the left arm was discolored and swollen from an infected scratch on the hand. Miss Victoria then returned and explained that her sister had pricked herself three days before with a needle but had refused to have medical aid.

"We never had a doctor in our lives and we weren't going to begin with them," said the sister.

"We were a couple of regular old maids," she said complacently, "but nice ones," she added quickly. And then she lapsed into the present tense as if her sister were still alive. "We love animals, all kinds, birds, dogs, horses, snakes, but especially cats; O, I love 'em, that is, four-legged ones. But I don't like two-legged ones," she mumbled reflectively, and shook her head decisively. "I like rats, too. Those in the cellar get many a scrap from me. Sure I feed 'em, but I have trouble keeping the cats away. Well, I'm all alone now, except for the cats, but I'll scrape along, although money is scarce."

Miss Victoria Starr is now the last of the five children of Samuel Starr, who was the cashier, 25 years ago, of the Bank of the Northern Liberties. The body of her sister, Sarah, was removed to the morgue. Doctor Egan said the death was due to natural causes.

Robbers Ask Postmaster to Keep No More Pennies as They Weigh Too Much.

Branchville, N. J.—When Postmaster William P. Ellett arrived at the post office one morning recently he found the interior in disorder and the following sign painted on the back of a calendar hung over the safe: "Have a heart! What's this place—a kid's toy bank? Wise up! Never keep pennies; they weigh too much."

A hurried investigation showed that the safe had been robbed of about two dollars, all in pennies, which had been left in a drawer at night, after all the silver and bills had been taken home by the postmaster. In a drawer above the one where the pennies were left was \$8 worth of stamps, but these were left undisturbed. The robbers gained entrance by forcing the lock on the front door.

BIG RATTLER CAUSES PANIC

Hundreds Flee Philadelphia Station When the Reptile Appears—Captured and Taken to Zoo.

Philadelphia.—Several hundred persons at the Broad street station of the Pennsylvania railroad were thrown into a panic by the sudden appearance of an eight foot diamond back rattlesnake. Accompanied by the shrieks of frightened women, commuters deserted the train shed and left the rattler in possession. Special officers captured the monster with a bag and took it to the city hall, where it was turned over to the zoological garden authorities. It is not known where the snake came from, but it is believed it arrived here in a car load of tropical fruit.

LINEMAN ASLEEP ON POLE

Many People in Oregon Town Thought That He Had Been Electrocuted.

Pendleton, Ore.—M. Morgan, a local telephone lineman, caused a commotion at the intersection of Main and Bluff streets when he fell asleep at the top of a telephone pole.

Passersby, seeing the motionless figure of a man lying across the cross-arm with arms and legs dangling in the air, thought he had been electrocuted. When assistance arrived it was found the man had merely been lulled to sleep by the warm sun. His belt prevented his falling.

LUKE McLUKE SAYS

(Cincinnati-Enquirer.)
Every woman is quick to detect flattery when it is applied to some other woman.

While a man may not openly regret having married his wife, he often secretly wonders why he married her.

The one good thing about every man is his own opinion of himself.

No real boy is ever tempted to steal the sort of a dog that a woman carries around in her arms and kisses.

Use for Lily Leaves.

A powder made from the leaves of water lilies is successful in making various fabrics waterproof. The inventor of the powder noticing that water was not absorbed when it fell on the leaves, but slid off, conceived the idea that the same substance which made the lily leaf waterproof might be used in connection with fabrics. The powder from the leaves is mixed with water, and the process consists in immersing the fabric in this mixture.

Five of a June Morning.

Got up before five and went down to replant corn. As I topped the hill the crows flew off, cawing angrily. "This is our time," they seemed to say. Found hill after hill scratched over and the sprouting corn scattered about. At 5 a. m. in June one has the weather of 9 a. m. in October or high noon in December.—From "A Farmer's Note Book," by C. E. D. Phelps.

Division of Labor.

While it takes 40 persons to make a washboard, 120 to make a shoe, somewhere between fifty and sixty to construct a corset, a score or more to manufacture a single pair of overalls, and equal numbers to produce other simple articles in daily use, the task of proportioning to the worker a fair wage for his or her exertions is not so simple a matter as some would have us believe. But a fair division would be a much easier problem to solve were each worker placed on an equality in bargaining.

Our Dwelling Place.

The earth is not a place of atonement; it is that dwelling place of ours where we must toil for the achievement of the ideal truth and justice—the ideal of which the rudiments are hidden in every man's soul.—Mazzini.

Horn and bones of a wild ox and the antler of a red deer, both prehistoric animals, have been found during dredging in the river Thames at Marlow, Buckinghamshire, England.

An Amateur.

"Some saintly folk in this town are always throwing the game of poker at our unoffending head," says a Georgia editor. "We want to say, once for all, that we don't know the game. THE CASE OF L. L. CANTELOU.

The case of L. L. Canteiou, Claridon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all dealers.

Scouring Paste.

To make a good scouring mixture for boards, work into a paste half a pound of soft soap, half a pound of sand and a quarter of a pound of lime. Put it on with a scrubbing brush instead of soap, and then wash off with plenty of clean water.

SUMMER CONSTIPATION DANGEROUS.

Constipation in Summer-time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the Bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Both Phones.

Until he gets one every man imagines he needs a wife.

A man notices it, but it never occurs to woman that there are no such animals as the dames in the pictures in the up-to-date magazines.

The best way to avoid Temptation is to mind your own business and keep on traveling.

A man will advise his wife to do as she thinks best, and then go around and brag that his wife always acts on his advice.

The old-fashioned man who tried to leave footprints on the sands of Time now has a son who is trying to cover up his tracks.

If you happen to admire a girl, she is vivacious. If you don't like her, she is too blamed gabby.
